Subject Fw: BOUNDARIES OF ALLEYWAYS SAMPLING

Gary, I'm resending you this message because Tom Turner and I need this information in order to proceed with certain actions related to the OAZ sampling.

Paragraph 48 of Section XIII of the June 2005 RI/FS AOC states that Respondents shall use their best efforts to obtain access for sampling. This includes, in Tom's and my interpretation, the Respondents or their representatives assisting EPA in actions needed to obtain access for sampling. An example of such an action is the request for information I described below.

Please reply to Tom and me by October 12 with the information I requested.

Thanks.

Subject BOUNDARIES OF ALLEYWAYS SAMPLING

Pat, could you provide me with a brief description of the streets or other boundaries of the area planned for alleyway sampling, shown in Figure 13 of the SSP? For example, the northern boundary is Collinsville Road.

Also, if you have an electronic version of Figure 13, please e-mail it to me. (Don't zip it, because I think the Region 5 computer security system will block it.)

Thanks.
